PROFESSIONAL SUMMARY

Software Engineer with a Computer Science background specializing in mobile development (Flutter) and backend architecture (Laravel, Go, Python). Possesses 1 year of hands-on experience in IT Support & Software Engineering, including designing multi-role Event Booking Systems, CPG visitor tracking platforms, Clean Architecture with Cubit state management, and high-performance RESTful APIs. Highly adaptive in managing end-to-end technical systems and collaborating effectively in cross-functional teams.

KEY PROJECTS

Event Booking System — Malang Creative Center

Laravel, Go, MySQL, QR Code, Virtual Tour 360°

- **Role:** Full-Stack / Software Engineer
- Architected an integrated multi-role venue reservation system separating workflows across operational divisions (Marketing, Front Office, Media Production, Duty Officer, Super Admin).
- Implemented Multi-Booking capabilities, automated room verification workflows, QR Code check-in/out integration, and 360° virtual room inspection tours.

CPG Visitor Counter & Analytics Dashboard — MCC

Python, AI (YOLOv8s), Web Dashboard, Data Analytics

- **Role:** Software Engineer / Full-Stack Developer
- Engineered an integrated visitor counting system utilizing AI computer vision (YOLOv8s) via surveillance streams and custom Front Office digital forms.
- Developed a real-time data visualization dashboard for cross-divisional monitoring (Front Office, Media Production, Marketing) to streamline operational analytics.

Glupulse — Health Monitoring Mobile Application

Flutter, Clean Architecture, Cubit, REST API

- **Role:** Lead & Front-End Developer
- Led the mobile engineering team in designing and constructing a health monitoring application in Flutter using Clean Architecture and Cubit state management.
- Integrated efficient state management mechanisms for real-time data streaming, ensuring an optimized and highly responsive UI.

WORK EXPERIENCE

Software Engineer (IT Support Division) — Malang Creative Center

Feb 2025 – Feb 2026 | Malang, Indonesia

- Developed an integrated multi-role Event Booking System (Marketing, FO, Media Production, Duty Officer, Admin) with Multi-Booking, QR Code Check-in/out, and 360° VR exploration.
- Built a CPG visitor tracking ecosystem featuring digital form customization and real-time analytical dashboards for internal divisions.
- Designed and deployed scalable RESTful APIs (Laravel/Go) and optimized database schemas for enhanced system responsiveness.
- Executed daily IT asset auditing, inventory tracking, and provided technical operational support across building infrastructure.

Customer Service Officer — Brilliant English Course

Jun 2026 (1 Month) | Kediri, Indonesia

- Provided bilingual course consultations (Indonesian & English) to prospective students in a responsive and professional manner.
- Managed student registrations, class scheduling, and resolved technical and operational inquiries on a daily basis.
- Established positive communication channels to elevate service satisfaction and strengthen student retention rates.

EDUCATION

BINUS University — Bachelor of Computer Science (S.Kom) — Computer Science

Graduated: May 2026 | Indonesia

- **GPA:** 3.45 / 4.00
- **Undergraduate Thesis:** Artificial Intelligence-Based Health Application for Food and Activity Recommendations for Diabetes Patients.
- **Program:** Wisuda 75 Cohort & Enrichment Internship Program.

SKILLS & CERTIFICATIONS

Programming Languages & Frameworks: JavaScript, Flutter (Dart), Laravel (PHP), Go (Golang), Python, RESTful API

Architecture & Tools: Clean Architecture, Cubit, Figma (Design Systems), Git, Postman, MySQL/PostgreSQL

Certifications & Training:

- Introduction to JavaScript Certificate — Great Learning Academy (March 2024)
- Creative Builder Certificate — RRQ x Minetourn Bedwars Tournament Season 4
- Pre-Basic Course Certificate — Brilliant English Course
- Basic Course Certificate — Brilliant English Course
- Speak First Class Certificate — The Daffodils
- Listen and Talk Class Certificate — The Daffodils
- Step One Class Certificate — The Daffodils
- Pronunciation Class Certificate — The Daffodils

Soft Skills: IT Troubleshooting, Customer Service, Problem Solving, Professional Communication

Languages: Indonesian (Native), English (Professional / Intermediate)
